Criminal Record Checks

Criminal record checks

WHO WE ARE...

Charles Eason, Managing Director at Care Check

" Care Check began in 2002 after the UK government made it compulsory for anyone who would be working with vulnerable people to have a criminal record check. This legislation was instigated primarily because of the Soham murders and has continued to serve its purpose in protecting people in the UK.

At Care Check we offer all levels of criminal record checks to all types of industries providing a fast and efficient service to our thousands of satisfied customers. We offer a friendly and experienced service and my team are always here to help.

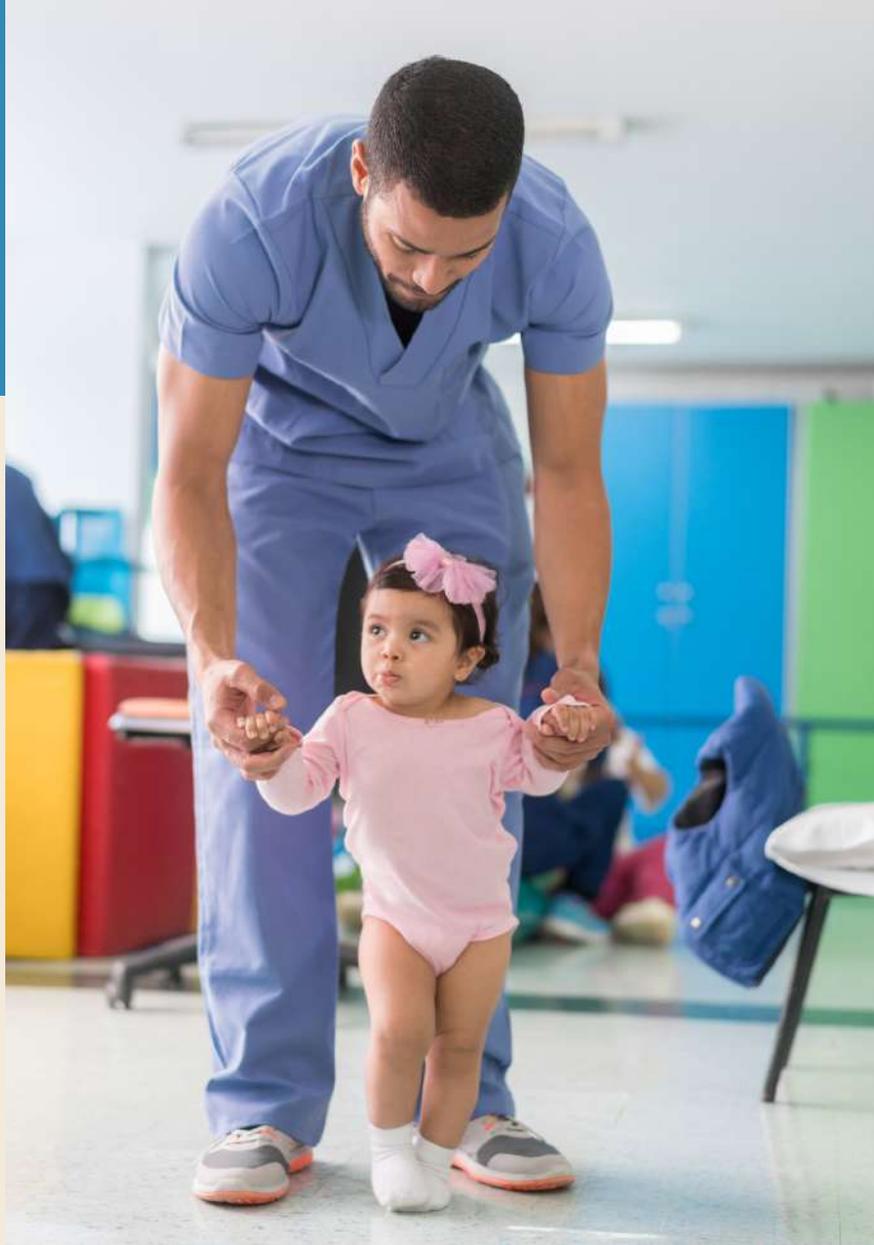

We pride ourselves on the speed and efficiency of our system and I am told on a regular basis how it has revolutionised our clients' recruitment process. They are always surprised to discover that an application can process and complete on the same day."

WHAT WE DO...

Care Check is an online company that has chosen to forgo the original paper route in favour of an e-bulk system.

It is completely paperless and enables you to apply for your criminal record checks online. Once completed, it is then transferred directly to the DBS IT system reducing the processing time.

This works far better than the previous paper form completion service that is still offered by many other umbrella bodies, but is a lot slower and fails to notice errors on applications.

ALWAYS DELIVERING A

FANTASTIC

SERVICE

Verified order

You found Care Check, so you don't need to look elsewhere

I have not had one single issue and everything is very clear. I would recommend without any hesitation to any organisation small, medium or big. We did some serious research before using Care Check and we are so glad that we did.

"QUICK, EASY AND RELIABLE. A FANTASTIC SERVICE"

Susan Wheatly, 20/10/2016

We pride ourselves on delivering a super-fast service that beats the majority of our competitors and with 87 % of our checks completing between 24 hours and 5 days, we are confident that we can provide the efficient service you require.

We have three main transfer deadlines during the day and these take place at 10am, 12 noon and 6pm allowing all applications that have been submitted on that day to be transferred immediately without any delays.

Once the applications have been processed, our clients can track the status of them via our tracking system and can keep up to date with any progress of the application.

In addition to this, once an application has completed, the client will receive an email notification to advise them to login to Care Check to view the certificate result.

If the DBS application is clear then the employer will be able to download a PDF snapshot of the certificate result. However, if an application holds convictions the employer will have to wait for the applicant to receive the hard copy of their certificate and then produce it to them so they can make a recruitment decision about their future employment.

**IF YOUR ORGANISATION IS EXCEEDING THESE NUMBERS,
PLEASE CONTACT US ON 0333 777 8575 AND WE CAN
DISCUSS YOUR PRICING THRESHOLDS.**

PAYMENT METHODS

WHEN USING OUR SYSTEM YOU CAN BENEFIT FROM FOUR DIFFERENT PAYMENT METHODS.

We can set your account so that the applicant pays for their own DBS Check. The system will ask for their credit/debit card details at time of application.

This saves you, the employer, time and money.

Alternatively, your account can be activated to an organisation online payment. This enables you to pay for your applications before they process and this eliminates the hassle of worrying about payment due dates or making payments.

Concurrently, clients can opt to pay via an invoice system and this works in two ways: If your company hits a certain threshold we can set the account on a pay monthly status and at the end of each month you will be sent a detailed list of all applications you have submitted in that month.

Invoices need to be paid within 15 days to keep this privilege.

For smaller clients, an invoice at time of application can be arranged with the same invoice terms.

TESTIMONIALS

"I have used Care Check since I started my home care business and have always been really impressed with the service. If I've ever had any issues, they have helped solve them straight away. Would recommend to many. "

"I have not had one single issue and everything is very clear. I would recommend without any hesitation to any organisation small, medium or big. We did some serious research before using Care Check and we are so glad that we did."

OUR CUSTOMERS LOVE US!

TRUSTPILOT

"I have found Care Check to be very quick and helpful when I call, answering all questions in depth. The return of applications is incredible quick and I am delighted with the service at present."

"From registering to completing the application, the service was very easy, the staff helpful and the whole process was straight forward."
